Vehicle Wrapping Solutions

MetaCast[®] MDC XR[™]
Premium Cast Printable Vehicle Wrap Film

MetaCast® MDC XR™ | Premium Cast Printable Vehicle Wrap Film with XR™ Adhesive System

MetaGlide® XR™ Adhesive System

Designed to optimise repositionability and features micro-channel air-release technology, allowing installers to work more efficiently.

Roll Widths

MetaCast® MDC XR™ is available at 1370mm and 1600mm width, allowing vehicle doors to be wrapped in one drop without joins.

3D Conformability

Engineered using the latest cast film technology, the 50 micron film enables superior performance on full vehicle wraps, channels and recesses.

Why choose MetaCast® MDC XR™?

MetaCast® MDC XR™ is a premium cast printable vehicle wrap film engineered for installers who want speed without compromise. Featuring Metamark's advanced MetaGlide® XR™ adhesive system, MDC XR™ delivers optimised repositionability, giving total confidence when working into channels and recesses.

MetaCast® MDC XR™

Cast Printable Vehicle Wrap Film with XR™ Adhesive System

Designed for Solvent, Eco-Solvent, Latex and UV printing¹, MDC XR™ produces exceptional print vibrancy and consistency, matched perfectly with the MetaGuard MGC overlamine series. Backed by the MetaSure™ warranty of up to 10 years, MDC XR™ is the ideal choice for demanding wrap projects where performance, reliability and installation confidence matter most offering optimised repositionability.

MetaGuard MGC

Cast Wrap Film Overlamine

Matched to MetaCast® MDC XR™, this premium overlamine provides a finished system to prevent tunnelling or delamination. It is highly conformable with great ease of application and has been engineered to give long term dimensional stability whilst providing durability to the print. Backed by our MetaSure™ warranty. Available in Gloss and Matt finishes.

MetaSure™ Warranty

MetaCast® MDC XR™ is manufactured for long term dimensional stability and its performance is assured by our MetaSure™ Warranty. For full warranty details, go to www.metamark.co.uk/support.

MD Class Print Quality

Metamark Digital Films ensure best in class print quality. Wide colour gamut, vibrant tones, and out of the box printer compatibility. Compatible on Solvent, Eco-Solvent, Latex and UV¹.

Adhesive Technologies

MetaCast® MDC XR™ features the superior handling MetaGlide® adhesive technology. MetaGlide® micro-channel adhesive offers both enhanced repositionability and a high final adhesion. This allows quicker and easier installation particularly on larger panels. Suitable for dry application methods.

MD Class Print Quality

MetaCast® MDC XR™ has been engineered to ensure outstanding print quality and brilliant colour reproduction. Out of the box printer compatibility, through the range of ICC profiles available. For use with Solvent, Eco-Solvent, UV¹ and Latex inkjet printers.

MetaSure™ Warranty

MetaCast® MDC XR™ is backed by our MetaSure™ warranty. Our MetaSure™ warranty offers peace of mind, and our assurance of product conformity and compliance.

*Durability – up to 10 year (unprinted). Vertical exposure under Northern European conditions. For other regions and climates, refer to our full Durability Guide found on our website.

¹ Some UV inks may not be suitable for conforming. Check compatibility prior to use.

Warranty: Metamark (UK) Limited warrants to its customer that graphics and markings produced using Metamark MetaCast® Digital Media and / or MetaGuard MGC Cast Laminate will remain in satisfactory condition for a term no less than that defined in the technical literature. If within the term as outlined, Metamark, at its sole discretion, judges that graphics and markings produced using its materials have suffered unacceptable degradation, Metamark will provide sufficient materials to enable the production of replacement graphics or markings. Metamark further warrants that its materials will be supplied free of defects incurred in manufacturing and undertakes to replace, free of charge, any materials it judges to be defective upon examination.
